I understand that I am at liberty to seek or continue medical care from a physician or surgeon or other health care provider qualified to practice in Ontario. **Hints to help you fill this medical history application:**

The following are some hints on how to fill the application form as accurate as possible. Every question has two forms of answers. The first group of answers determine whether a symptom should be marked as **one** of the following answers

C...  symptoms are present daily or

F...  symptoms come and go frequently every few days, every week or every month or

P...  symptoms appear every several months or every season.

The second answer is placed under **Value** which explains the intensity of the symptom when it come using numbers from ( 1 to 10 ).

Intensity of a symptom has nothing to do with the frequency of the symptom whether daily or once a week or one a month.

Number (1 to 3) indicates the symptom's intensity is very small when it comes. On the other hand, a number (4 or 7) indicates that the symptom's intensity is disturbing and bothersome when it come. The number (8 to 10) symptom's intensity is very painful whether the symptom appears every day or once a month. You should assign or estimate number to every question as you see it. This is not a right or wrong questions. For example :
